

## THE DROWNING SEASON.

There are many fatal diseases pertaining to summer weather, but it is doubtful if any of them carries off as many victims as drowning. It is to the credit of this method of death that it seems more like disease than tragedy; physicians describe it as comparatively painless, and there is not in it the horror that comes from crushing, burning, shooting, or any of the methods of human slaughter that is attended with the shedding of blood. For this reason a drowning accident is read of with less disturbance of the nerves than almost any other fatal casualty.

Nevertheless life is dear, and any means for the prevention of its wanton or needless loss should not be overlooked. At the height of the summer season is the time when the great multitude of deaths by water occur. Every person who cannot swim should know that when he ventures into water beyond his depth for a bath, he puts his life at a serious risk. Even skillful swimmers sometimes plunge in without examining the temperature of the water, they are seized with cramps, and all their knowledge of swimming is of no avail. If they had sketched around in the shallow edge until their bodies had become sufficiently cool to endure the great depth, an act of only common prudence, their lives would have been saved. And as for the person who cannot swim, he should always keep himself in shallow water, unless accompanied by some strong and skillful swimmer to teach him the accomplishment.

For sanitary reasons it is undoubtedly the duty of every considerable place like Reno to provide bathing facilities. When undertaken as individual enterprises they are generally found to pay a handsome profit, and it is much wiser, for the weary and heated workmen to cool and refresh himself with a bath than to "cool off" in the beer saloon. However, the artificial bath is not handy to every person; while here a stream of sufficient depth is within the reach of every home. The duty of learning to swim is not to be weighed according to the convenience of water, but according to the necessity of exercising the knowledge, to which every person who travels by water is likely to be exposed. Let every community which can possibly afford it act liberally in supplying facilities for bathing, and while doing this they should be made sufficiently broad and deep for the taking of swimming lessons also. These can be managed with such scrupulous regard for decency that men and women may properly enjoy the society of each other in the water, as is done at the most fashionable seaside resorts. The social feature is a great stimulus to a knowledge of swimming. The youth under such circumstances would consider it derogatory to his manhood to fail, and the young woman would glory in an accomplishment so demonstrative of manual skill and of robust health. We want fewer drowning accidents. People need all the more to be on their guard because often before they actually realize their danger they are gone. This death, painless as it seems to be, is just as effectual as any other in closing a career and cutting off a life full of joy and promise.

## AN AUSPICIOUS OMEN

The Brotherhood of Telegraphers has reason to congratulate itself upon having scored a point in its effort to secure decent wages for decent work, and the American Rapid Telegraph Company is deserving of kind words for having made satisfactory arrangements with the Brotherhood, by acceding to an advance of ten per cent. on salaries, extra pay for all work done over eight hours for a day, and over seven hours for night work, and extra for all Sunday work. This just recognition of the claims of the operators will be of great help to the Brotherhood in its struggle with the Western Union, and but a few days will elapse before that infamous corporation will be forced to succumb to the inevitable, and yield up some of its ill-gotten gains to provide sustenance to those whom it has been gradually impoverishing. It has already lost a sum sufficient to have paid for years of the extra expense asked for, and it will be a long time before it can make up in dollars and cents the loss resulting by its foolish action. It never will again possess the good will of the general public. The conduct of the operators has been such as to justify the people in sustaining their cause, and there will be universal rejoicing throughout the land when the wires are once more under their control, and joyfully announce that their victory is supremely victorious.

The White House clothing store will be ready to supply all who come in from the country to attend the circus.

## THE CANDELARIA FLAG POLE.

Gov. Adams Still Fails to Keep His Campaign Promise.

[Carson Appeal 23d.]

Some weeks ago it was stated that the flag pole which Gov. Adams promised the people of Candelaria during the campaign had at last been shipped to its destination. The Appeal at the time, ever willing to do full justice to any man who keeps his promise, made an extended notice of the shipment. This gave the few papers who profess to admire Mr. Adams an opportunity of making somewhat of a stir over this matter as they called attention to the fact that Adams was keeping his word better than his detractors. Now the facts of the case are that Gov. Adams has not sent any flag pole to Candelaria or elsewhere. The report that he did so is incorrect and must have originated in some ill-advised friend of the Governor who wanted to silence newspaper criticism on the subject for the time being. The freight records of the V. & T. R. R. fail to show that any flag pole of any description has passed over the road since the night that Jewett Adams solemnly assured the confiding people of Candelaria that he intended to present them with a new liberty pole. Thus he still stands before the public as a breaker of his word, and the people of Candelaria will look in vain for the pole. No man holding the position of Governor of a State can afford to break his word. Such a course lowers his status as a gentleman and brings contempt upon the gubernatorial office. A promise made in the heat of a political campaign is just as binding as one made at any other place or at any other time. We have no doubt that the Governor will redeem his word as a matter of policy, at least since the press of the State has agitated the matter so fully. And when the good people of Candelaria get the flag pole they should inscribe upon it: "Presented to the town of Candelaria by the Press of Nevada." If the pole is not in place in one year from the date of the Adams promise, the Nevada Press Association should subscribe a sufficient sum to buy the pole.

## Excursion Parties for the Yellowstone.

Ex-Governor Boutwell of Massachusetts, ex-Senator Roscoe Conkling and a few friends left New York Tuesday on their Yellowstone Park trip. Rufus Hatch will take a party of about eighty persons on an excursion to Yellowstone Park, starting August 10th and returning about September 15th. They go over the Northern Pacific Railroad to Livingston, and thence by railway, which is partly completed, southward to Mammoth Hot Springs. The route homeward is yet not fixed, the courtesy of a number of railways having been extended to the party. About twenty distinguished foreigners are now on their way from Europe to join the party. Henry Villard will take a party of probably two or three hundred people to Yellowstone Park, starting August 28th.

## United States Railroad Commissioners at the Bay.

Wm. Thompson and F. B. Pickersel, members of the United States Railroad Commission, are in San Francisco. They have commenced an examination of the books of the Central Pacific Railroad Company to effect a settlement with the company for the Government at 25 per cent. of the earnings of the company for the last year. Railroad Commissioner Armstrong made an examination of the Southern Pacific railroad himself and has gone to Oregon to inspect the Northern Pacific road. The Commissioners, after finishing at San Francisco, will proceed to Oregon to examine the books of the Oregon company.

## New Railroad Offices.

It is stated on good authority that the Central and Southern Pacific Railroad management will very shortly open an up-town office in San Francisco for both passenger and freight business. The report is apparently well founded. A rumor prevails that Villard's agents have just purchased property at Post, Market and Montgomery streets for the erection of a handsome building for their Oregon business.

## The Southern Exposition.

The New York Times, of yesterday, editorially says: President Arthur arrived in this city yesterday, en route to Louisville to open the great Southern Exposition on the first of August. He will be attended or met by the Secretary of the Treasury, Secretary of War and Postmaster General, and by General Sheridan. The occasion is one which warrants this recognition of its importance by high officials of the national government. The exposition is intended to afford a practical opportunity to visitors from all parts of the United States to examine the resources and present development and capacities of the Southern States. It has been very carefully planned and in a manner which reflects credit upon the energy and foresight of the gentlemen who had it in charge. The grounds are large, the buildings not only extensive, but conveniently arranged and the scheme of exhibits appears to be very well adapted to accomplish its purpose.

There is a rumor of a duel between John P. Irish, editor of the Oakland Times, and Arthur McEwen, editor of the Stockton Herald. The above is probably gotten up by McEwen to give himself notoriety.—Proche Record.

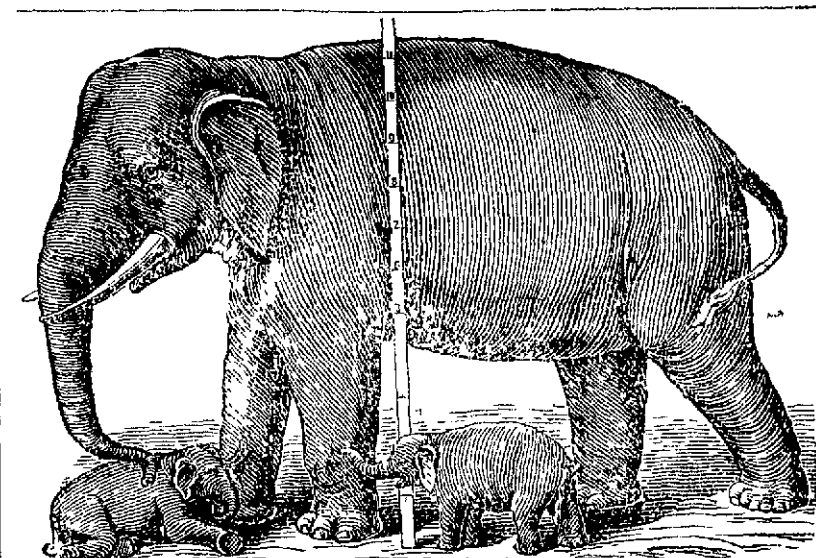

NEW TO-DAY. NEW TO-DAY.

RENO, THURSDAY, AUG. 9th

## JOHN ROBINSON'S BIG SHOWS COMBINED.

MENAGERIE, MUSEUM, AVIARY, AQUARIUM, EGYPTIAN CARAVAN, SCHOOL OF TRAINED ANIMALS, CALISTHENIC EXHIBITION AND STRICTLY MORAL CIRCUSES

Requiring and using 3 Separate and Distinct Rings.

## IN AND OUT OF TOWN.

## What is Being Said and Done in a Small Way.

The weather was comfortably cool yesterday.

A. McIntosh, the Boca lumberman, is in town.

The boys say there is no trout in the Truckee at this time.

Ex-Senator Westerfield returned from California yesterday.

W. R. Mosher is in from Cedarville on a short visit.

Doves are said to be very plentiful in Peavine Mountain.

There are plenty of new Nevada potatoes in the market.

There was considerable wind and thunder yesterday but no rain.

The District Court adjourned over until tomorrow at 10 o'clock.

Senator Smyth, of Lander, was a passenger for the Bay yesterday.

Charley Marks was locked up yesterday for being drunk and disorderly.

Brown and Kelley's freight teams pulled out for Plumas yesterday.

Miss Mollie Smith, niece of Mrs. A. J. Clark, left for Colorado yesterday.

Killip, the pool-box man, went west yesterday on his return from Chicago.

One A. J. Frisch was taken into custody yesterday on a charge of vagrancy.

Deputy Sheriff Polk, of Elko, went east this morning on his return from California.

A. J. Clark will commence moving into his new quarters on Virginia street next Monday.

A number of Eastern Sir Knights were on yesterday morning's train bound for the Golden Gate.

Stocks are barely holding their own. The market is inclined downward, according to surface indications.

J. W. Kinsley, Grand Master Workman, A. O. U. W., will deliver a free lecture at Verdi tomorrow night.

Monroe Greenwood and family and Joseph Powning and family, of San Francisco, are rusticiating at Tahoe.

Ed. Fowler, of Wadsworth, and wife, were on the train yesterday morning bound for Santa Cruz and Monterey.

A young man named Joseph Shannon is said to have struck a streak of rich ore in a mine near Steamboat Springs.

The young folks will have a social dance at Kimball Hall to-night. Fredrick and Hastings' band will furnish the music.

A heavy rain storm occurred yesterday afternoon between Washoe and Steamboat. It blew down the wheat in the field on the Italian ranch.

Judge Belknap and R. M. Clarke went south with H. M. Yerington on Saturday in the Superintendent's car. They were bound for the hot country on a pleasure trip.

Work has not yet been commenced on the new Verdi bridge. The wagon road leading from the proposed bridge to Verdi will be completed in a day or two.

Regent Harry Day came down from Carson last evening en route to Elko to attend a meeting tomorrow of the Board of Regents of the State University.

A new hotel is to be built at Tallac, Lake Tahoe, next year. The lake is growing in public favor each succeeding season. There is a perfect jam up there now.

Jack Everett and party while on their way to the mountains took in a pleasant dance at Comstock's hotel, Boca. They say Pete is doing a staying business in his new quarters.

True Locke, representing Pohlman, the tailor, of San Francisco, is in town. After having lived on the Comstock for 21 years True hardly feels at home in his new vocation.

The total amount paid by the Fire Insurance Companies to sufferers by the late fire in Virginia City amounted to \$10,636. Much of the property destroyed was uninsured.

## PLUMAS AND SAN FRANCISCO.

## A Reduction in Stage Fare which is Likely to Prove Detrimental to Reno.

The Oroville, Quincy and Greenville stage line has made a reduction in passenger rates between the above points and San Francisco which is liable to prove of serious moment to the business interests of Reno. Round trip tickets from Plumas to San Francisco, good for 20 days, are now on sale at the railroad office in Marysville, and all the stage offices in Plumas county for \$9, and single tickets for \$5.50. This change makes the route from Plumas county to San Francisco, by the way of Oroville, considerably cheaper than that by the way of Reno. The road from Reno to Quincy is shorter and easier than that from Quincy to Oroville, and has the advantage of being open all winter. Until this change the fare has been about the same on either route, and as a result, the greater portion of the travel came this way, but the probabilities are that, unless a corresponding reduction can be obtained over this route, Reno will lose very much, if not all the Plumas county travel; for, in these pinching times, people who are compelled to travel will submit to considerable inconvenience to save expense. It seems like a business proposition for the railroad and stage companies to make the necessary reduction in fares, as the stages will lose the trade entirely, while the railroad company will not carry passengers over the Oroville route as far by over a hundred miles. Every business man in Reno is interested in this matter and should at least make an effort to secure the reduction.

## Shooting in Sierra Valley.

A row occurred at the Summit Hotel, Sierra Valley, last Tuesday, in which a young man, whose name the reporter could not learn, was shot in the face by Joe Dyson, a gentleman well known in Reno. The ball entered the young man's cheek and inflicted a very painful though not necessarily fatal wound. It appears that Dyson, considerably under the influence of liquor, was driving into the station, and somewhere on the road an Indian, who was also pretty drunk, got aboard the wagon, and thinking himself the soberest of the two insisted on driving. Dyson objected and the two got into a quarrel which ended as they drove into the station by the Indian being unceremoniously dumped out of the wagon. By way of retaliation the Indian drew a pistol and fired three shots at his adversary. At this, several bystanders, including the young man who was shot, caught the Indian and while they were holding him down, Dyson got off the wagon and took a promiscuous shot at the crowd with the above result.

## Columbus District.

Columbus Mining District is in a fair way to exceed any former prosperity. The Mount Diablo is looking very well, and the bullion output for this quarter will almost equal that of the Northern Belle. The Columbus Consolidated is in splendid condition. The company is spending a great deal of money on their new hoisting works which will, when finished, be the finest in the country.

The owners of the Lucky Hill are in high spirits, as they have lately struck a fine body of ore.

Altogether, the outlook for Candalaria and its surroundings are very promising. Everything is on a solid basis, and there are more men now on the pay rolls of the different companies than ever before.

## Returned With His Man.

U. S. Marshal Corbett went through to Virginia City yesterday morning with the prisoner, J. P. Kerr, the patient medicine man who was arrested in Virginia City about two years ago on a charge of using canceled postage stamps and shipped out to avoid trial. The Marshal picked him up in San Francisco last Saturday.

## The Ranch Of Marker Brothers.

The ranch of Senator Marker and his brother, at Big Meadows, on the Humboldt, consists of about 17,000 acres. They employ some seventy men at ditching, building dams and irrigating. When all the contemplated improvements are finished the ranch will be one of the best in the State.

## St. Mary's Academy.

The Carson Appeal says St. Mary's Academy is one of the permanent institutions of the State, and several young ladies of Carson who have received their education there bear ample testimony to the ability and care of those having it in charge.

## State Monkeys.

On the 25th the Board of Examiners counted the money in the Treasury and found \$1,152,118 46 in coin, and \$30,059 75 in vouchers; also a \$380,000 School Bond, \$145,000 in State Bonds and \$15 0,000 in U. S. Bonds.

If the supply of dogs hold out every boy in town will have money enough to buy a circus ticket by the time the show gets here.

## HOT WEATHER.

## How to Enjoy Life During the Warmest Weather.

The New York Graphic gives this set of rules for the guidance of people in hot weather: Keep cool. Wear a cabbage leaf in your hat. Carry a sun umbrella. Don't walk on the sunny side of the street. Don't drink too much ice water, nor beer; nor spirits. Don't overwork. Don't worry. Knock off business in the heat of the day. Take sponge baths every few minutes. Get on your \$100,000 yacht and run up and down the lake. Let your business slide, and retire in the cool, shady groves. Don't read political editorials. Never mind about the next President. Put it on ice. Cultivate perspiration. Sleep all you can. Live in your bathroom. Think of the poor. Never mind charity, but think of them in some cool place.

## The Obliteration Shift Shut Down.

The Virginia Chronicle says all underground work in the Gould & Curry Best & Belcher mines was shut down yesterday, only about six men remaining for surface work out of a force of 40 to 60.

## The Contempt Case.

Judge Boardman yesterday rendered a decision in the Smith-Logan contempt case. The defendant Logan was fined \$75 and the costs of the suit.

County Assessor Stoddard has assessed the property of the Railroad Company at \$16,000 per mile, the same as last year. The Company filed their statement some time ago placing the value of the property at \$9,000.

Jack Everett, Billy Caughlin and others, have returned from their camping trip. They had a splendid time, but found the fishing bad everywhere. They were far enough north to miss the storm entirely.

The Water Company completed their wing dam at the head of the Highland ditch yesterday. When the water was turned in there was more than the ditch could carry and it ran over and nearly destroyed the first dam.

## THE CARSON AND COLORADO.

Progress of the Railroad—New Smelters and Mining Works—A Fine Mineral Region Being Opened Up.

(Enterprise 26th.)

The southern terminus of the Carson and Colorado Railroad is now at Hawley Station, on Owens lake, about 300 miles from the Mound House, at the foot of the Panamint grade. Arrangements are now being made for running the trains to and from that point on the 1st of August.

NEW LIFE GIVEN TO ALL KINDS OF BUSINESS.

As a consequence of the road coming in a good deal of activity is now being evinced in that section in many kinds of business, and particularly in mining. From the number of valuable mines in that vicinity and outlying districts a heavy output of bullion may be expected in a short time.

## A SMELTING FURNACE IN BLAST AT DARWIN.

The smelting furnace of the DeFiance mine at Darwin started up day before yesterday, with a large quantity of argentiferous ore on the dump.

Lumber and other material are now being shipped to Swansea, at the head of Owens Lake, for the erection of a thirty-ton smelting furnace. The site of this smelter is directly on the road to Cerro Gordo, about six miles distant. The owners anticipate a large and successful business from the product of their own mines at Cerro Gordo.

RICH ORE FROM THE OWENS LAKE REGION.

Day before yesterday a car of ore from the Illinois mine came in to the Mound House. The ore is worth \$800 per ton. It is destined for reduction works in San Francisco, and indicates the kind of ore they have down in the Owens Lake country.

## A SMELTING FURNACE AND SAMPLES.

The Montezuma Company's smelter is now at Bishop Creek, and will be sent over and erected near the mine in a few days. This smelter can be run exclusively on a very large body of argentiferous galena ore now exposed in the Montezuma mine, independent of other ores that may be found by adjacent mining companies.

There is a sampler connected with this furnace, it being the intention of the new company to buy all smelting ores offered in lots of from 500 pounds to 500 tons. This arrangement will be of immense benefit to the country in the vicinity of Bishop Creek, Alford (formerly Big Pine), and all the adjacent camps.

## Richness of Specimen Ores.

The horn silver shipped to Commissioner Murphy at Denver, from the Pine Spring mine at Turkey Creek, Arizona, retains marks of the tools that were used to chisel it out of its natural bed. The mine from which the ore was taken shows no indication diminishing in richness. There has been a shaft sunk in it thirty-two feet deep.

## "THREW AWAY HER SUPPORTER."

Dr. Pierce:—A neighbor of ours was suffering from "female weakness" which the doctors told her could not be cured without a supporter. After considerable persuasion my wife induced her to try our "Favorite Prescription." After using one bottle she threw away the supporter and did a large washing, which she had not done in two years before.

JAMES MILLER, 4246 Jacob Street, Wheeling, W. Va.

## THE MILL MEN AND THE RANCHMEN.

## The Water Difficulty Now Existing Between Them.

(Carson Appeal, 24th.)

Most of the river stamps are now hung up because there is no water to run the mills, and over two hundred miners are thrown out of employment in consequence and about one hundred woodchoppers. Last year the mills on the Carson ran until the 7th of August. The cause of the scarcity of water in the Carson river is due to the carelessness of the ranchers whose farms lie along the banks of the stream. On Sunday a committee went up from the mills to ascertain the real cause of the trouble. They found some of the ranchers using the water economically and only so far as actually necessary, while others were allowing it to run to waste and receiving no benefits thereby. There were the usual feuds among the farmers and some were actually drowning out their own grain in order to prevent an adjacent farm from receiving riparian benefits. In some districts the committee drove through water axle deep which had been diverted from the river and was left to run to waste to such an extent as to almost render the roads impassable. In some places it was running in floods over the sagebrush, bon-firing no one. The cause of the trouble did not seem to be any enmity toward the mills, but rather a desire on the part of some to get all they could and others to prevent their neighbors from getting all they were entitled to. In some places the ranchers were irrigating for a second crop of alfalfa when thousands of tons were lying in stacks over two years old. Beside this, irrigation for a second crop of hay in Carson Valley is not necessary, the ground being sufficiently moist whenever a first crop has been raised. The mills have the legal right to the water under an order of the United States Court made in 1885, on the grounds of priority of appropriation, in which fifty-seven injunctions were granted against the use of the water by the ranchers, and also Sawyer's decision in 1873 in a case of riparian right in the action of the Union Mill and Mining Company against Dauberg. The decree gave the Mill Company perpetual right to the waters of the stream for the reduction of metaliferous ores and returning the ranchers from using any water unless they turned it back into the natural channel again and only used such as was actually necessary. A decree was also made to the effect that they could use none after July 15. The mill men are now employing three agents to stay in Carson Valley and report any violations of the law with a view to legal proceedings. It is probable, however, that the matter will be amicably settled.

## Wisely Said.

(S. F. Call.)

Congressman Morrison of Illinois tells the Democratic party that there is no use of its going round the country begging to be put in power on the plea that it "has been out in the cold for twenty-four years." That sort of a whine, he says, will disgust instead of winning the people. "If the party wishes to win votes, it must show itself better than the Republican party." This is sound advice. It is the spoils-seekers whom the people have come to despise. If no better argument can be offered for a new deal, than that of merely changing one set of office-holders to make room for another, it would probably be just as well to respect the fable in which the fox forbade the flies to be driven off, which covered his body, and were already gorged, for fear a new swarm would light down on him and deplete his veins of their last drop of blood. In the next Presidential campaign, presuming reputable candidates to be put in nomination by the different parties the contest will hinge mainly upon the issues raised. The tariff question will have much to do with the election and a great deal will depend upon how it is treated in the different platforms, in the effort to meet the popular expectations. Never before had the mere name "party" have so little weight with the people as a shibboleth as at the present time. The conservative masses have asserted their independence, and the policy that pleases them best is that which they will support, regardless of past political affiliations.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-17r.

The most healthy and popular drink of the season is the ice cold soda water, sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

WISE people are always looking for a chance to better their condition in time, because they know that those who do not improve their condition remain in poverty. We offer a great chance to make money. We want many men, women, boys and girls to work for us right in their own localities. Any one can do the work properly from the first start. The business will pay more than ten times ordinary wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and that is needed sent free. Address STINSON & CO., Portland, Maine. nov30-ly

\$72 A week made at home by the industrious. Best business now before the public. Capital not needed. We will start you. Men, women, boys and girls wanted everywhere to work for us. Now is the time. You can work in spare time, or give your whole time to the business. No other business will pay you nearly as well. No one can fail to make enormous pay, by engaging at once. Costly outfit and terms free. Money made fast, easily, and honorably. Address Taux & Co., Augusta, Maine. nov30-ly
